RESEARCH INTERESTS   Software Engineering, Data Mining (Software Repositories)

PROJECTS

Dalhousie Youth Services

- Software Engineering Capstone
- Added new functionality to an Existing system to improve client efficiency
- Main functionality to remove manual work of generating reports
- Use of React electron, node.js, and graph APIs such as ant forms and Nivio graphs

Bucket-List (G-Force)

- A project that allows for users to generate lists that can be shared and completed between users
- Use of vanilla JavaScript, jQuery and php

RELEVANT EXPERIENCE

2018 - 2020	Trent University	Peterborough, ON

Academic Assistant

- Academic Assistant for multiple Computer Science courses
- Marked assignments, journals, exams, and labs according to marking schemes
- Assisted students to complete assessments in lab demonstrations.
- 2018 Fall term, 2019 Winter term, 2019 Fall term and 2020 winter term

EDUCATION

2016 - 2020	Trent University	Peterborough, ON

B.Sc. (Honours) Computer Science
Graduation: April 2020.
Extracurriculars: Electric City Hack Volunteer (2016-2017), Trent Fiber Artists Association

RELEVANT COURSES

Software Engineering/Computer Science

Software Architecture & Design	Web Application development
Data Structures & Algorithms I&II	Systems Programming
Project Management	Human Computer Interaction
Software Design & Modelling	Artificial Intelligence
Computer Organization	Database Management Systems
Software Engineering Project	Data Mining
Fund Operating Systems	Computer Networks

SKILLS

OS: Windows 10, Linux
Program languages: Java, JavaScript, C++, C#, Python, Golang, Kotlin
Frameworks: Angular.js, React.js, Django, Spring
